*You remember things better when you write them with hand*

**d-Kagaz** is a professional E-ink notepad and e-book reader. This electronic notepad with stylus combines the simplicity and comfort of writing on real paper-like surface with the ease to access the digital notes stored in the 'cloud' at any later time. **d-Kagaz** enables writing on digital paper to allow our minds enter a creative space that is free from distraction. **d-Kagaz** is an Android tablet where you can visit the notes / e-book you have browsed at any time in the past. Our e-ink notebook, **d-Kagaz** has application for professionals, teachers, editors, students etc.

## Glare-Free Screen

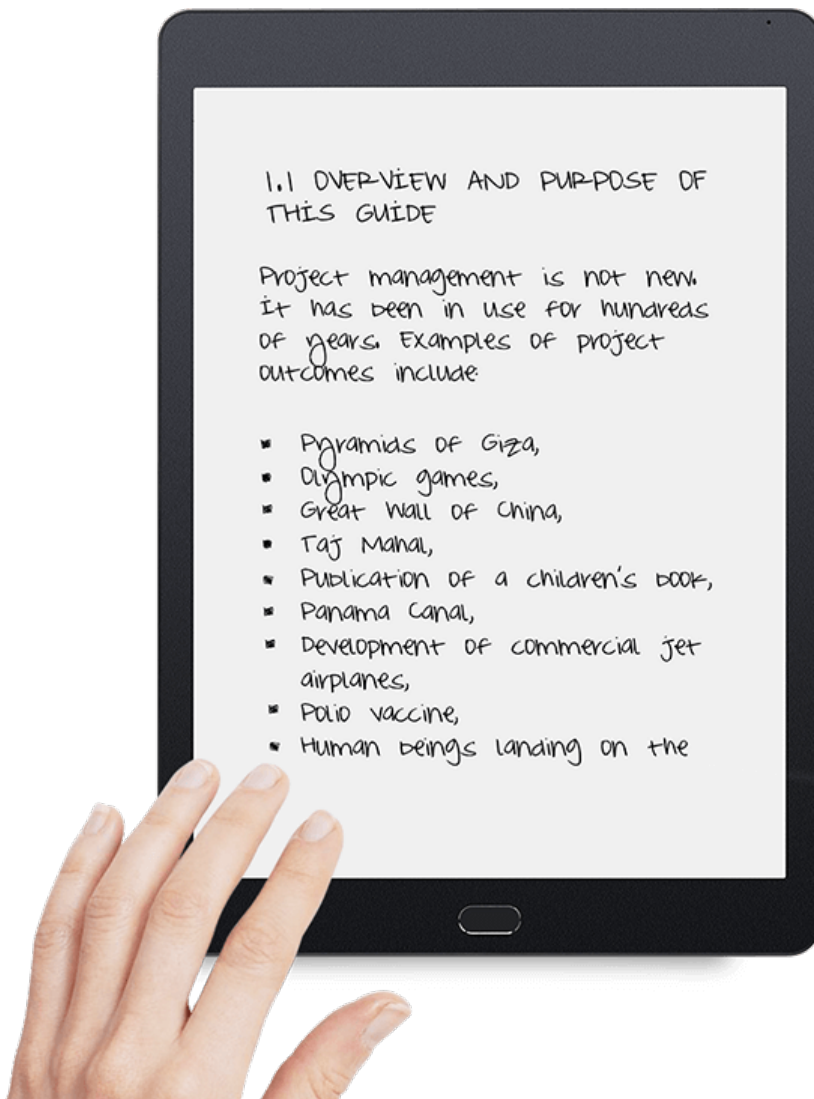

The screen of **d-Kagaz** notepad is entirely glare-free in direct sunlight, just like paper. It is easy-on-the-eyes and a pleasure to look at. It is also suited for long periods of usage, without straining the eyes. You can now look forward to meetings or work sessions under bright lights, near windows, and outdoors, with text displayed in high definition 1440×1080 pixels.

## Real-time Cloud Synchronization

When users write notes, the notes are simultaneously uploaded to cloud in the user's space. Users can check the past notes anytime and anywhere. These notes can be downloaded to one's computer, handphone or any device as a .pdf. This enables the user to use the work on the note on a different device even when **d-Kagaz** is not around. **d-Kagaz** enables collaborative working between the team on a real-time basis.
